To: NEWMOA Waste Site Cleanup Training and Steering Committees and Brownfields Workgroups

Attached is my start at a potential agenda - the morning on the chemical properties and regulations, and the afternoon on site work issues. Not enough time for any of the slots but we will have to make do as I don't think we can cut anything? Your feedback would be appreciated.

As you know, I've been working with Brown University's Superfund Research Program – their new state agency liaison, Dr. Jennifer Guelfo got her PhD studying PFAS fate and transport and has helped with the agenda/presenters. If one or both URI professors can't attend, then I'm sure we can get EPA Region 1 staff to cover those topics. Please suggest alternative presenters and/or who can speak to the NH, NY, and VT experience.

It looks like the earliest we can have the meeting is the week on May 23rd – any dates that do not work that week? Again the location will be in central Mass, most likely Marlboro.

Jennifer

**GOVERNMENT/REGULATOR WORKSHOP ON POLY- AND
PERFLUOROALKYL SUBSTANCES (PFAS)**

Draft Agenda: March 16, 2016

9:30 Welcome and Introductions

9:45 Introduction to PFAS – Uses, Chemistry, Terminology

Speaker: Dr. Jennifer Guelfo, Brown University

10:15 PFAS subsurface fate and transport

Speaker: Dr. Jennifer Guelfo, Brown University
